

# Zeppelin 400

design: Studio Tecnico Ivela

Realizzato per l'illuminazione di strutture commerciali, negozi, magazzini, aree espositive. Grazie al suo design si può ben collocare in abitazioni dall'arredamento moderno e di tendenza.

It is designed for shops, offices, warehouses and display areas. Thanks to its design it is the perfect furnishing solution for modern high-tech homes.

# Zeppel 400

Apparecchio fornito completo di lampade fluorescenti compatte elettroniche ad elevata potenza, fino a 120 Watt, di ultima generazione, per un concreto risparmio di energia ed un'alta emissione luminosa.

Reattore elettronico alloggiato nel vano componenti.

Corpo in tecnopolimero nero o verniciato metal.

Riflettore in policarbonato traslucido o metallizzato internamente con verniciatura esterna.

Schermo di protezione in vetro temprato mm 4 antiabbagliante, resistente agli urti e agli shock termici, fissato al riflettore con ganci in tecnopolimero.

Grado di protezione IP44.

Tensione di alimentazione 230V/240V - 50/60Hz.

Fitting including last generation electronic compact fluorescent lamps with high power up to 120 Watt for a real energy saving and high luminous efficiency.

Electronic gear included in the housing.

Housing either in black technopolymer or with a silver paint finish.

The polycarbonate reflector is available with a translucent finish or metallized inside with external paint finish.

Safety screen in 4 mm anti-dazzle tempered glass, shock and heat resistant. It is fastened to the reflector by technopolymer clips.

IP44 protection rating.

Supply voltage 230V/240V - 50/60Hz.
